ABOUT THE UAW VETERANS COMMITTEE

Since 1944 when the UAW Veteran's Department was created, our Union has continually reaffirmed its commitment to Veterans through the passage of the pro-veterans resolutions; the creation of standing Veteran's Committees in our Local Unions, the creation of a National Veterans Advisory Committee in 1995, and the first UAW National Veterans Conference in 1995.

The UAW National Veterans Advisory Committee shall seek to represent the interests of all active and retired UAW members who are veterans.

We are dedicated to responding to the political and social needs of veterans and their families by providing leadership, guidance, and education on matters of concern to veterans.

We shall seek avenues to encourage veterans to become more active within their local unions, to participate in community activities, and to support and promote those policies and goals of the UAW which will benefit veterans and their families. We shall strive to build and enhance the confidence and dignity which all veterans are entitled to share in having served their country, as well as the price of membership and participation in their strong and democratic Union.

The entire UAW deeply appreciates the proud service offered to our nation, to communities all across the country, and to our Union by our members who are Veteran's of the United States Armed Forces.
